

Curriculum Statement

At Ss Peter & Paul Catholic School, we are proud to have a predominately skilled-based curriculum which provides our children with the required skill set to allow them to grow quickly into confident and independent learners. As the children progress through the school we ensure that their thirst for learning is developed through greater exposure to subject knowledge and opportunities to apply their new learning, ask searching questions to allow them to grow into well-rounded individuals.

Our curriculum has been designed to encompass knowledge and understanding of the world in which we live, and also the events that have shaped it in the past, and though that influence current thinking. The topics have been designed to complement and build on one another with clear progression and links so that in subsequent year groups, they will be able to explore concepts deeper, applying their knowledge in different contexts.

Topics have been carefully selected to embrace the wider world both past and present. This is underpinned by our Catholic teaching and philosophy which ensures that our local and wider community always remain at the heart of teaching & learning and social action. As a school, and part of The Romero Academy, we provide a range of enrichment opportunities that bring the curriculum to life and provide purposeful opportunities to apply key skills and knowledge.

We are outward facing and have sought to foster a number of links within the local and wider community to utilise local settings or external professionals, such as WASPs, Highly Sprung theatre, Romero festivals and local Parish church.

"Learning and loving on our journey with Jesus"
